

# Sunil

Technology Leader | Frontend Developer | Angular | React  
[chopra1.sunil@gmail.com](mailto:chopra1.sunil@gmail.com) | 7357434006 | Gurugram, India

## CORE COMPETENCIES

- Software Development
- Solution Architecture
- Angular Based Application
- Single Page Application
- Angular web element
- Angular App Build
- Angular app deployment
- Infrastructure Management

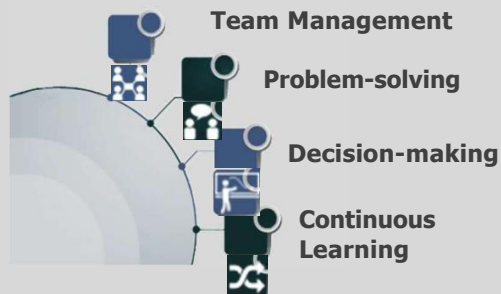

## TECHNICAL SKILLS

- Frontend:** Single Page application development by using Angular, React
- Web Framework:** Angular, React, Material UI, Next Js

**Technologies:** Typescript, JavaScript, HTML5, CSS, SCSS, Bootstrap, SQL

## SOFT SKILLS

## EDUCATION

- MCA Ignou University
- B.SC KuK University

## PROFILE SUMMARY

- Highly motivated Senior Software Engineer with over 9 years of experience in front-end development. Expert in creating dynamic, user-centric web applications with a strong emphasis on performance, scalability, and seamless user experiences. Proficient in modern technologies, frameworks, and tools, and dedicated to staying updated with industry trends and best practices.

## Roles & Responsibilities

- Led the development of high-traffic web applications, improving performance and user engagement by 30%.
  - Architected and implemented scalable front-end solutions using **Angular** with **TypeScript**.
  - Mentored junior developers, conducted code reviews, and provided technical guidance.
  - Integrated **REST API's** for seamless data interactions between front-end and back-end systems.
  - Developed feature-rich web applications with **Angular** and TypeScript, optimizing performance and reducing load times by up to 40%.
  - Implemented automated testing frameworks, increasing code coverage and reliability.
  - Collaborated with back-end developers to design robust APIs and ensure system stability.
  - Contributed to project planning, requirement gathering, and technical documentation.
  - Applied optimization techniques in Next.js, such as **lazy loading** and **code splitting**.
- Created responsive web pages using HTML5 and CSS3, optimizing for performance and user experience.

## WORK EXPERIENCE

---

### **Save Max Real Estate Brokerage Pvt. Ltd. (Senior Software Engineer)**

Lead the development of multiple high-traffic web applications, improving performance and user engagement by 30%. Architect and implemented scalable front-end solutions using Angular, React. Mentored junior developers, providing code reviews and technical guidance. Integrated Rest API's to enable seamless data interactions between front-end and back-end systems.

### **One Click (Senior Software Engineer)**

Developed and maintained feature-rich web applications using Angular and TypeScript. Optimized application performance, reducing load times by up to 40% Implemented automated testing frameworks, increasing code coverage and reliability. Worked closely with back-end developers to design and implement robust API's. Contributed to project planning, requirement gathering, and technical documentation.

### **Logique Brain (Senior Software Engineer)**

Architect and design scalable, maintainable, and high-performance front-end solutions using Next.js. Participate in code reviews to maintain code quality and share knowledge with the team. Implement lazy loading, code splitting, and other optimization techniques in Next.js. Engage in regular code refactoring to improve code base maintainability.

### **Web4Bharat(Senior Software Engineer)**

Craft and structure web pages using HTML5 and CSS3. Implement responsive design techniques to ensure compatibility across various devices and screen sizes. Collaborate with development teams to integrate HTML/CSS with JavaScript and backend systems. Optimize CSS for performance, reducing load times and enhancing user experience.

**ACCOMPLISHMENTS** Honored with the Star Award for outstanding performance. Conducted technical workshops and training sessions, enhancing the team's knowledge of modern front-end technologies and practices. Managed a team of front-end developers to successfully deliver a large-scale web application on time and within budget
